GORE-TEX PYRAD® STRETCH COVERALL

WB250M & WB250F

PRODUCT DESCRIPTION

Our durable weather protective, waterproof, coverall can be relied upon to offer exceptional protection against the thermal hazards of an electric arc in cold and wet environments.

Enhanced with arc rated GORE-TEX PYRAD® Stretch technology, the coverall provides soft-to-touch comfort and quick re-dry times, that can endure long days and changeable weather conditions in even the toughest environments, all whilst offering freedom of movement when bending and stretching.

GARMENT LENGTH

SIZE	WEARER HEIGHT *(cm / Inches)*		WEARER INSIDE LEG *(cm / Inches)*	
Short	164-172cm	5'5"-5'8"	74cm	29"
Regular	172-180cm	5'8"-5'11"	79cm	31"
Tall	180-188cm	5'11"-6'2"	84cm	33"
X-Tall	188-196cm	6'2"-6'5"	89cm	35"
XX-Tall	196-204cm	6'5"-6'8"	94cm	37"

MEASURING GUIDE

Measurements must be taken wearing clothing usually worn underneath waterproof outerwear. The tape measure should be fairly loose and not pulled too tight.

- ✓ **BUST** - measure under the arms at the fullest part around the bust horizontally with arms by your side
- ✓ **WAIST** - measure around the natural waistline at the fullest part
- ✓ **HIP** - with the feet together measure around fullest part of the hips
- ✓ **HEIGHT** - with bare feet together measure from the top of the head to the floor
- ✓ **INSIDE LEG** - in bare feet take the measurement from the top of the inside leg and measure down the inside leg to the floor

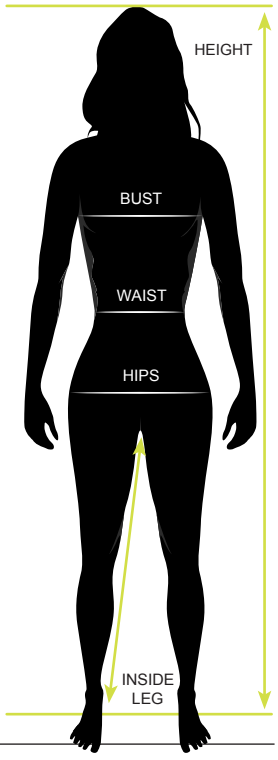

Once measurements are taken compare them to the fit guide measurement tables to find your coverall size.

When fitting the coverall, if the bust, waist and hip measurements fall into different size categories then choose the larger size to ensure the coverall is not too close fitting.

If the height and inside leg measurements fall into different length categories then choose the coverall length based on the inside leg measurement.

***These styles are historically perceived as FEMALE but can be worn by any person who's body measurements fit into the above tables.*

****Please note when using the measurement tables that all manufacturing tolerances and standard garment over-measures have been taken into account. This ensures any slight variances in manufacture or fabric shrinkage after washing will not affect the fit of the garments.*

MEASURING GUIDE

Measurements must be taken wearing clothing usually worn underneath waterproof outerwear. The tape measure should be fairly loose and not pulled too tight.

- ✓ **CHEST** - measure under the arms at the fullest part around the chest horizontally with arms by your side
- ✓ **WAIST** - measure around the natural waistline at the fullest part
- ✓ **SEAT** - with the feet together measure around fullest part of the hips
- ✓ **HEIGHT** - with bare feet together measure from the top of the head to the floor
- ✓ **INSIDE LEG** - in bare feet take the measurement from the top of the inside leg and measure down the inside leg to the floor

Once measurements are taken compare them to the fit guide measurement tables to find your coverall size.

When fitting the coverall, if the chest, waist and seat measurements fall into different size categories then choose the larger size to ensure the coverall is not too close fitting.

If the height and inside leg measurements fall into different length categories then choose the coverall length based on the inside leg measurement.

***** *These styles are historically perceived as MALE but can be worn by any person who's body measurements fit into the above tables.*

****** *Please note when using the measurement tables that all manufacturing tolerances and standard garment over-measures have been taken into account. This ensures any slight variances in manufacture or fabric shrinkage after washing will not affect the fit of the garments.*
